A CIA employee has been performing this function. He is scheduled to retire 1 July 1975 and there are no plans to replace him. He was a deck officer in the NIC. He, unlike the other CIA deak officers, was allowed to remain with the SWS since he had requested retirement on 1 July 1975.
- 2. One of the SWS enlisted men is used for SWS administrative support of the Strategic Warning Staff and does late afternoon traffic sort. His duty hours are 0900-1800 hours daily. The other enlisted billet is still assigned to the SWS; however, the incumbent does the typing of the Watch Officer Notes in DI-2. She works from 1900-0300/0400 daily. DI-1 was instructed by DI to move the incumbent and billet to DI-2 "after a respectable period of time had passed after formation of the SWS." This billet and incurbent will be moved to DIH-18 during the reorganization. The DI influenced in early Murch that this billet and the incumbent would be moved to DI-2; at the same time, the DI adviced one civilian billet and incumbent would be goved from the SWS to one of the word processing convers when it is established.
